

anthropic-sdk-python v1.4.0 released

From: GitHub

Source: GitHub

The Brief

****What shipped****

Anthropic released version 1.4.0 of the anthropic-sdk-python.

****Capabilities****

This version includes new API features such as the addition of Claude Tag categories and user breakdowns to usage reports, as well as named types for organization compliance settings state. Specific performance metrics or capabilities are not stated.

****Availability****

The SDK is available on GitHub for download and use. Pricing and tier information is not stated.

****Why it matters****

The new features enhance reporting and compliance capabilities for users interacting with the API, potentially improving user experience and organizational oversight.

****Caveats****

No performance benchmarks or specific enhancements in speed or quality are provided, which limits the assessment of improvements in this release.
